- Frontend: HTML5, CSS3, JavaScript, React.js, Redux, Tailwind CSS, Bootstrap, ShadCN/UI
- Backend: Node.js, Express.js, RESTful APIs
- Database: MongoDB
- Tools: Git, GitHub

Projects

Wedding Photography Website(Freelancing)

[github](#) [🔗](#)

- Tech Stack : React, Node.js , Express , MongoDB , Tailwind CSS
- Developed a responsive and modern wedding photography website using **React.js** and **Tailwind CSS**, ensuring mobile-first UI and seamless user experience.
- Implemented an **Admin Dashboard** with authentication to allow only authorized users (admin) to upload YouTube video links and video/image files.
- Built RESTful APIs using **Node.js** and **Express.js**; used **Multer** for file uploads and **CORS** for secure cross-origin communication.

Experience

Front-end Developer

NetITSystems

Mohali, Panjab

Jan 2025 – Mar 2025

- Developed and managed custom WordPress websites, implementing scalable themes, custom plugins, and performance optimizations to improve site speed and usability.
- Extensive hands-on experience with Elementor and Divi, leveraging advanced features to build dynamic, visually appealing, and mobile-responsive websites.

Front-end Developer

Mezzotint

Mohali, Panjab

May 2024 – Nov 2024

- Designed, developed, and maintained high-performance, responsive web interfaces using HTML, CSS, Tailwind, JavaScript, and React.js, ensuring seamless user experiences across devices.
- Collaborated with frontend teams to enhance responsiveness, improve UI/UX, and ensure cross-browser compatibility and optimized performance.
- Contributed to the "Gravity" project by building interactive UI components and refining layouts using HTML, CSS, and JavaScript to improve visual appeal and functionality.
